

## Publications

Dr RA Badwe, Director, TMC, unveiled the first edition of the textbook “**Objective Anaesthesia Review**” – **A Comprehensive Textbook for the Examinee**” published by the Department of Anaesthesiology, Critical Care and Pain, Tata Memorial Hospital, Mumbai, on 20<sup>th</sup> March 2009, during the inaugural function of ARC 09.

This textbook contains over 700 pages, and is a comprehensive, concise publication which will help the exam going student to prepare for the practical examination.

The book has two sections, section 1 contains 34 case discussions commonly encountered in the exams, and section 2, the table viva section has contents (such as anaesthesia machine, vaporizers, ECGs, X-rays, and other equipment), to prepare the student for the table viva. There are several illustrations through out the text and separate colour plates with illustrations of new anaesthesia equipment such as supraglottic airway devices as well as the old anaesthesia equipment.

The book is available for sale for a nominal cost of Rs 500/- (postal charges extra). Those interested in buying the book can contact
